

Special Issue

Hotspots of Fungal Diversity

Message from the Guest Editors

This Special Issue of *Microorganisms* welcomes reviews and original research articles from worldwide to address the latest developments in:

- The assessment of the fungal diversity in diverse substrates, ecological niches, and geographical places—especially in those that are poorly studied and characterized;
- The comparison between molecular and culture-dependent techniques for the assessment of fungal diversity;
- The use of novel tools for monitoring fungal diversity;
- Establishing the relationships between physical and chemical environmental factors with fungal richness.

Guest Editors

Dr. Alberto Miguel Stchigel

Mycology Unit, Medical School, Universitat Rovira i Virgili, Reus, Spain

Dr. Dea Garcia-Hermoso

Institut Pasteur, Paris, France

Dr. Yasmina Marín Félix

Helmholtz-Zentrum für Infektionsforschung (Helmholtz Centre for Infection Research), Braunschweig, Germany

Deadline for manuscript submissions

closed (30 June 2021)

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
