

Special Issue

Gut Microorganisms of Aquatic Animals

Message from the Guest Editor

The Special Issue entitled “Gut Microorganisms of Aquatic Animals” aims to present recent research on any aspect of aquatic animal gut microbiology. Some of its focal points include, but are not limited to, the following:

- Gut microbes of animals living in extreme aquatic environments
- Aquatic animal ontogeny and microbial succession
- Gut microbiology of farmed aquatic animals
- Gut Archaea and microscopic eukaryotes of aquatic animals
- Novel methodologies for investigating gut microbes of aquatic animals
- Pollution and other environmental stress factors on gut microbes of aquatic animals
- Insights into the hologenome theory of evolution of aquatic animals

Prof. Dr. Konstantinos Kormas

Guest Editor

Prof. Dr. Konstantinos A. Kormas

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
