Topical Collection

Feature Papers in Environmental Microbiology

Message from the Collection Editor

We are pleased to announce the launch of the Topical Collection "Feature Papers in Environmental Microbiology". This collection aims to showcase highquality research articles, short communications, and review articles covering all aspects of environmental microbiology. By curating cutting-edge works, we strive to highlight the latest advancements and innovations shaping this dynamic field. We warmly invite researchers to submit manuscripts reflecting their most recent progress and breakthroughs. Additionally, we encourage you to extend this invitation to relevant experts and colleagues whose contributions would enhance the breadth and impact of this collection. We look forward to your valuable contributions that will further the understanding and application of environmental microbiology.

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
