

# Special Issue

## The Pathogenesis, Epidemiology and Diagnosis of Infectious Diseases in Livestock Animals, 2nd Edition

### Message from the Guest Editor

This Special Issue is a continuation of our previous one, entitled “[The Pathogenesis, Epidemiology and Diagnosis of Infectious Diseases in Livestock Animals](#)”.

This Special Issue aims to provide a comprehensive overview of the current understanding of infectious diseases in livestock, as well as the tools and strategies available for their prevention, control, and diagnosis. We hope that this Special Issue will be a valuable resource for veterinarians, researchers, and policymakers involved in the fight against infectious diseases in livestock.

### Guest Editor

Prof. Dr. Selwyn Arlington Headley

Laboratory of Animal Pathology, Veterinary Hospital, Department of Veterinary Preventive Medicine, Universidade Estadual de Londrina, Campus Universitário, Londrina, Brazil

### Deadline for manuscript submissions

31 December 2025

**Microorganisms**

an Open Access Journal

## About the Journal

### Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
