

Special Issue

Paracoccidioidomycosis

Message from the Guest Editor

PCM researchers are invited to contribute to this Special Issue, which aims different aspects of this type of mycosis. In addition, the Special Issue will focus on several issues that have not received much attention, such as central nervous system involvement and the medical and social impacts of PCM. Experimental studies answering questions that have emerged from clinical findings and that constitute translational research are eligible for inclusion. There are several aspects of PCM that should be evaluated in more depth, including the antifungal compounds that are routinely used in PCM therapy. Reaching a balance between the different aspects of the disease is of interest. The final design of this issue can be presented after researchers have been contacted.

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
