

# Special Issue

## Interactions between Plant Beneficial *Pseudomonas* spp. and Their Host, 2nd Edition

### Message from the Guest Editor

This Special Issue is the continuation of our previous special issue "[Interactions between Plant Beneficial \*Pseudomonas\* spp. and Their Host](#)". The aim of this Special Issue is to give a platform for researchers to discuss various aspects related to the ecology, diversity, physiology and genetics of plant-beneficial *Pseudomonas* spp., while putting special emphasis on the mechanisms involved in biocontrol and/or plant growth promotion. Novel insights and innovative research on these organisms, including recent progress in genomics, transcriptomics and metabolomics, are welcomed. For this purpose, we cordially invite you to submit research articles, review articles and short communications related to the various aspects of plant-beneficial *Pseudomonas* spp. and their interactions with their host.

---

## About the Journal

### Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
