

# Special Issue

## Insect Pathogenic Fungi: Physiological and Ecological Interactions with Arthropods and Other Organisms

### Message from the Guest Editors

We look forward to receiving your contributions to this Special Issue in the form of original research and review papers which help to uncover ecological and immune-physiological interactions between entomopathogenic fungi and various organisms, including (i) interactions of the fungi with target and nontarget animals, (ii) interactions with plants, and (iii) interactions with microorganisms associated with insects and plants. Works on molecular and biochemical mechanisms of interaction between fungi and organisms from other kingdoms will be prioritized.

### Guest Editors

Prof. Dr. Victor Glupov

Institute of Systematics and Ecology of Animals, Siberian Branch of Russian Academy of Science, 630091 Novosibirsk, Russia

Dr. Vadim Kryukov

Institute of Systematics and Ecology of Animals, Siberian Branch of Russian Academy of Science, 630091 Novosibirsk, Russia

### Deadline for manuscript submissions

closed (31 August 2023)

## About the Journal

### Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

---

### Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for  
Environmental Research, 04318 Leipzig, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
