Probiotics, Prebiotics, and Synbiotics in Animal Nutrition and Health, and Food Safety

Message from the Guest Editor

The growth of human populations will lead to a significant increase in food production from both plant and animal sources. It is imperative to utilize growth promoters that enhance feed efficiency and reduce the costs required to meet this need. Although antibiotics have been commonly used for this purpose, their associated health risks, particularly the rise of antibiotic-resistant bacteria, make finding effective alternatives crucial. Consequently, there has been a substantial shift towards using probiotics, prebiotics, and synbiotics.

This Special Issue requests Original review/Research papers exploring multiple dimensions of probiotics, prebiotics, and synbiotics in ruminant and non-ruminant animals, including fish.

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
