

Special Issue

Latest Review Papers in Medical Microbiology 2024

Message from the Guest Editor

This Special Issue is the continuation of our previous special issue "[Latest Review Papers in Medical Microbiology 2023](#)". It aims to collect high-quality review papers in all the fields of medical microbiology. We encourage researchers from related fields to contribute review papers highlighting the latest developments in medical microbiology, or to invite other relevant experts and colleagues to do so. Full length comprehensive reviews will be preferred.

Guest Editor

Prof. Dr. Antonella d'Arminio Monforte

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
