

Special Issue

Diversity of Extremophiles in Time and Space

Message from the Guest Editors

For this Special Issue, we aim to explore the diversity and spatiotemporal distribution of microorganisms from different extreme environments using the different tools available to microbial ecologists. We encourage researchers to send original articles, reviews or short communications that advance our understanding of extreme microorganisms, ecosystems or microbial processes. Submissions comparing communities from different environments or otherwise providing an integrative view of extreme microbiology are particularly encouraged.

Guest Editors

Dr. Fernando Puente-Sánchez

Systems Biology Department, Spanish National Research Council, Madrid, Spain

Prof. Max Chavarria

Centro de Investigaciones en Productos Naturales, Universidad de Costa Rica, San José, Costa Rica

Deadline for manuscript submissions

closed (15 September 2021)

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
