

Special Issue

The Intricate World of Microbial Methane

Message from the Guest Editors

In this Special Issue, we aim to encapsulate this vibrant field, and we invite manuscripts exploring all facets of microbial methane dynamics. From fundamental inquiries into methanogen and methanotroph biology to the ecological nuances of methane processes in diverse natural and engineered environments, we seek to showcase the latest research through the lens of *Microorganisms*.

Guest Editors

Prof. Dr. Heribert Insam

BioTreaT—Biological Treatment and Recycling Technologies, Inc.
Technikerstr. 21, 6020 Innsbruck, Austria

Dr. Xueqin Zhang

Australian Centre for Water and Environmental Biotechnology (ACWEB),
Faculty of Engineering, Architecture and Information Technology,
University of Queensland, Brisbane, Australia

Deadline for manuscript submissions

closed (15 November 2024)

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
