Algal Host-Microbe Interactions

Message from the Guest Editors

Host-microbe interactions play crucial roles in marine ecosystems, but we know little of the mechanisms that govern them, their evolution, and their ecological and economic impacts. This Special Issue is dedicated to studies in host-microbe interactions of macro- and microalgae, from mutualistic to parasitic interactions. Contributions can include diversity assessments of the symbiome, functional studies on interactions, conceptual advances, and commercial aspects such as the cultivation of algae and alga-derived products. Model systems include viruses, bacteria, archaea, fungi, oomycetes, and endo- and epiphytic algae.

Guest Editors

Dr. Simon Dittami

Dr. Catherine Leblanc

Dr. Aschwin Engelen

Prof. Dr. Suhelen Egan

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
