

Special Issue

Beneficial and Detrimental Microorganisms Occurring in Fermented Foods

Message from the Guest Editors

For this Special Issue of *Microorganisms*, dedicated to “Beneficial and Detrimental Microorganisms Occurring in Fermented Foods”, we invite you to submit contributions concerning any aspect of pro-technological, probiotic, spoilage, and/or pathogenic microorganisms occurring in fermented foods, as well as on the characterization, evolution, and metabolism of microbiota that occur during the production, storage, and distribution of these products.

Guest Editors

Dr. Vincenzina Fusco

Prof. Dr. Hikmate Abriouel

Dr. Evandro Leite de Souza

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
