

Special Issue

Complex Infectious Issues in Critically Ill Patients

Message from the Guest Editor

This Special Issue will increase our knowledge of epidemiology and treatment of complex infectious in ICU patients and understand the effects of antibiotic use in critical conditions. We welcome all submissions dealing with the emergence of resistances, epidemiology of multi-drug resistant pathogens, drug dosing, and/or toxicity related to the use of B-lactam antibiotics.

Guest Editor

Dr. Savino Spadaro

Department Morphology, Surgery and Experimental Medicine Faculty of Medicine, University of Ferrara, Ferrara, Italy

Deadline for manuscript submissions

closed (31 May 2021)

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
