

# Special Issue

## Gut Microbiota: Health, Clinical & Beyonds

### Message from the Guest Editors

Highly qualified papers selected from the annual meeting of "Biophysical Society of China's Division of Intestinal Flora Academic" will be invited to submit to this Special Issue for publication (50% extensions of contents of the conference paper). However, the Special Issue also welcomes submissions from general researchers that fit into the scope of the SI as shown below. Research areas may include (but are not limited to) the following:

- Host-gut microbiota interactions;
- Intestinal flora and chronic diseases;
- Microbiota-gut-brain axis;
- Clinical treatment research on gut flora;
- Gut microbiota development in animals;
- Diet, nutrition, and gut microbiota;
- Probiotics and gut health;
- Intestinal flora intervention and application transformation;
- New technologies for data mining and characterization of intestinal flora;
- The role of intestinal flora and human metabolites in pathogenesis of diseases.

### Guest Editors

Prof. Dr. Shuangjiang Liu

Prof. Dr. Changtao Jiang

Prof. Dr. Zhongze Fang

Prof. Dr. Hongwei Liu

Prof. Dr. Jun Wang

### Deadline for manuscript submissions

closed (30 June 2023)

## About the Journal

### Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
