

Special Issue

Present and Future Challenges of HIV Infection

Message from the Guest Editor

HIV infection has become a chronic disease and there is a presumption that most of the problems related to this disease have already been solved. In reality, too many subjects are still diagnosed late and many knowledge gaps remain to be filled in prevention, diagnosis, the cascade of care, drug-related side effects, and co-morbidities. This Special Issue will give a platform for practitioners and researchers operating in the HIV field to exchange original data and innovative viewpoints. For this purpose, we cordially invite you to submit research articles, articles, and short communications related to the various aspects of HIV infection on the basis of your expertise.

Guest Editor

Prof. Dr. Cristina Mussini

Clinic of Infectious Diseases, University of Modena and Reggio Emilia, Modena, Italy

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
