

Special Issue

Selected Papers from the Microbiome R&D and Business Collaboration Congress: Asia

Message from the Guest Editor

Dear colleagues, A microbiome is the totality of microbes, their genetic elements (genomes), and environmental interactions in a defined environment. In this Special Issue, we call for manuscripts with research at microbiomes which includes (1) mechanisms underlying the interaction between microbes and humans/plants/environments; (2) new technology of analyzing microbiomes; (3) biomarkers identified from the microbiome; and (4) medicines, diagnostics, or products derived from microbiome. Other fields such as artificial intelligence (AI) applied for microbiome research are also welcome.

This Special Issue is the outcome of papers submitted to the Microbiome R&D and Business Collaboration Congress: Asia (<http://www.global-engage.com/event/microbiome-asia/>) held in Tawan, organized by the National Central University and National Chiao Tung University (GLORIA) of Taiwan.

Guest Editor

Prof. Dr. Eric (Chun-Ming) Huang

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for
Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.2 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
