

Special Issue

Persisting Microorganisms and Chronic Diseases

Message from the Guest Editor

In this context, this Special Issue of *Microorganisms* aims to give the opportunity to researchers to present their most recent work and to exchange views, experiences, and updates concerning the association of chronic diseases with pathogens like *Helicobacter pylori*, chlamydia, mycoplasma, mycobacteria, and others. In particular, it is their diagnostics especially the comparison of DNA diagnostics to indirect immunological diagnostics. The second issue is the alternative treatment to cure them, because persisting pathogens are resistant to antibiotics. For this purpose, we invite you to submit original research articles, review articles, and short communications related to any aspects of the association of chronic diseases with persisting pathogens.

About the Journal

Message from the Editor-in-Chief

"Microorganism" merges the idea of the very small with the idea of the evolving reproducing organism is a unifying principle for the discipline of microbiology. Our journal recognizes the broadly diverse yet connected nature of microorganisms and provides an advanced publishing forum for original articles from scientists involved in high-quality basic and applied research on any prokaryotic or eukaryotic microorganism, and for research on the ecology, genomics and evolution of microbial communities as well as that exploring cultured microorganisms in the laboratory.

Editor-in-Chief

Dr. Nico Jehmlich

Department of Molecular Toxicology, UFZ-Helmholtz Centre for Environmental Research, 04318 Leipzig, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Microbiology) / CiteScore - Q1 (Microbiology (medical))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
