Message from the Guest Editors

Dear Colleagues,

This Special Issue celebrates the contributions of female scientists in advancing the field of environmental mineralogy. Submissions are invited from female corresponding authors on topics that cover the interactions of minerals with atmosphere, hydrosphere and biosphere in natural and engineered environments. This includes, e.g., processes contributing to mineral formation, alteration and solubilisation, biogeochemical cycling of elements and sedimentation, as well as contamination and related risk analysis. Additionally, manuscripts on engineering applications such as biomining, CO₂ sequestration, geoengineering, remediation and waste management are welcome.

Prof. Dr. Susan T. L. Harrison
Prof. Dr. Anna H. Kaksonen
Prof. Dr. Keiko Sasaki
Guest Editors

deadline for manuscript submissions:
closed (24 April 2022)
Message from the Editor-in-Chief

Minerals welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GeoRef, CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Mineralogy) / CiteScore - Q2 (Geology)
