Advances in Cu-Ni-PGE Mineralization

Guest Editor:

Prof. Dr. Aberra Mogessie

Institute of Earth Sciences, University of Graz, Universtaetsplatz 2, A-8010 Graz, Austria

Deadline for manuscript submissions:

closed (31 December 2022)

Message from the Guest Editor

We are planning to set up a new Special Issue focused on "Advances in Cu-Ni-PGE Mineralization" for the journal Minerals https://www.mdpi.com/journal/minerals. We invite you to submit your research results dealing with Cu-Ni-PGE mineralization for publication in this Special Issue. In this special volume, we would like to publish research findings dealing with new data on "Advances in Cu-Ni-PGE Mineralization", as related to exploration, models of mineralization, and analytical methods.

IMPACT FACTOR 2.2

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Leonid DubrovinskyBayerisches Geoinstitut, University Bayreuth, D-95440 Bayreuth, Germany

Message from the Editor-in-Chief

Minerals welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

Author Benefits

Open Access: free for readers, with <u>article processing charges</u> (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GeoRef,

CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Geochemistry and Geophysics*) / CiteScore - Q2 (*Geology*)
