Mineral Resources and the Environment

Guest Editor:

**Prof. Dr. Michael G.
Stamatakis**

Department of Geology &
Geoenvironment, National and
Kapodistrian University of Athens
(NKUA), 157 84 Athens, Greece

Deadline for manuscript
submissions:

closed (30 October 2017)

Message from the Guest Editor

Dear Colleagues,

Mineral resources are vital for several industries, though sustainable mineral development must be ensured when efficient mineral use is kept to a maximum, and negative impacts, from extraction, processing and transport, is kept to a minimum. Nowadays, significant environmental problems could be best addressed through mineral solutions. The increased demand in the world mineral commodity market has shown the need for local, regional and wider mineral policies, with high environmental awareness and substantial environmental benefits.

This Special Issue will provide a great opportunity to report recent and updated research on mineral resources related to the environment.

Prof. Michael Stamatakis

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Leonid Dubrovinsky

Bayerisches Geoinstitut,
University Bayreuth, D-95440
Bayreuth, Germany

Message from the Editor-in-Chief

Minerals welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), GeoRef, CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

Journal Rank: JCR - Q2 (Mining and Mineral Processing) / CiteScore - Q1 (Geology)
