Special Issue

Selected Papers from the 3rd European Mineralogical Conference: Mineralogy in the Modern World

Message from the Guest Editors

The leading theme of the 3rd European Mineralogical Conference (EMC2020) "Mineralogy in the Modern World" will serve as a platform for the exchange of ideas and approaches toward solving scientific problems in the realm of mineralogy related sciences, and we hope that this meeting will start new prospective collaborations. Thanks to the involvement of members from the various European mineralogical societies, a wide range of scientific sessions has been prepared.

The research results presented at the conference may be published in this Special Issue of Minerals. All the accepted articles will be published in full open access format. To all that are joining us at the conference, please do not miss out on this the opportunity to submit your full paper to the Special Issue.

About the Journal

Message from the Editor-in-Chief

Minerals welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

Editor-in-Chief

Prof. Dr. Leonid Dubrovinsky Bayerisches Geoinstitut, University Bayreuth, D-95440 Bayreuth, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), GeoRef, CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Mining and Mineral Processing) / CiteScore - Q1 (Geology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.2 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
