

Special Issue

Selected Papers from the 6th International Symposium on Mining and Environmental Protection

Message from the Guest Editor

We are pleased to inform you about the 6th International Symposium on Mining and Environmental Protection (www.rgf.bg.ac.rs/mep/), which will be held in June 2017, in Vrdnik, Serbia, and is organized by the Center for Environmental Engineering, Faculty of Mining and Geology, University of Belgrade in Belgrade. Previous conferences were very successful. Scientist and companies from many countries gathered to share experiences, information, and research results. The objective of this conference is to bring together engineers, scientists, and managers, working in the mining industry, research organizations, and government organizations, to work on the development and application of best practices in the mining industry with respect to environment protection. The attendance of representatives from almost all Serbian mines is expected, as well as significant participation by professionals from mines, institutes, and universities from all over the world.

Guest Editor

Prof. Dr. Ivica Ristović

Faculty of Mining and Geology, University of Belgrade, Belgrade 11000, Serbia

Deadline for manuscript submissions

closed (30 December 2017)

About the Journal

Message from the Editor-in-Chief

Minerals welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

Editor-in-Chief

Prof. Dr. Leonid Dubrovinsky

Bayerisches Geoinstitut, University Bayreuth, D-95440 Bayreuth,
Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), GEOBASE, GeoRef, CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Mining and Mineral Processing) / CiteScore - Q1 (Geology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
