

## Special Issue

# Mineralogy of Iron Ore Sinters

### Message from the Guest Editors

For this Special Issue, we welcome contributions detailing fundamental physical chemical studies, experimental as well as theoretical, but also detailed characterization of the formation mechanisms of sinter mineral phases. We also solicit methodological studies employing cutting-edge analytics. The intention of this Special Issue is that it will contribute to a better understanding of how iron ore sinter mineralogy impacts sinter quality. The keywords are:

- Sinter mineralogy
- Crystal structures
- Phase equilibria
- Characterisation
- Formation mechanisms

---

### Guest Editors

Dr. Mark I. Pownceby

CSIRO Mineral Resources, Research Way, Clayton, VIC 3168, Australia

Dr. Nathan A.S. Webster

CSIRO Mineral Resources, Private Bag 10, Clayton South, VIC 3169, Australia

---

### Deadline for manuscript submissions

closed (20 May 2019)

## About the Journal

### Message from the Editor-in-Chief

*Minerals* welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), GEOBASE, GeoRef, CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Mining and Mineral Processing) / CiteScore - Q1 (Geology)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
