

Special Issue

Advances in Cu-Ni-PGE Mineralization

Message from the Guest Editor

We are planning to set up a new Special Issue focused on "Advances in Cu-Ni-PGE Mineralization" for the journal *Minerals* <https://www.mdpi.com/journal/minerals>. We invite you to submit your research results dealing with Cu-Ni-PGE mineralization for publication in this Special Issue. In this special volume, we would like to publish research findings dealing with new data on "Advances in Cu-Ni-PGE Mineralization", as related to exploration, models of mineralization, and analytical methods.

Guest Editor

Prof. Dr. Aberra Mogessie

Institute of Earth Sciences, University of Graz, Universitaetsplatz 2, A-8010 Graz, Austria

Deadline for manuscript submissions

closed (31 December 2022)

About the Journal

Message from the Editor-in-Chief

Minerals welcomes submissions that report basic and applied research in mineralogy. Research areas of traditional interest are mineral deposits, mining, mineral processing and environmental mineralogy. The journal footprint also includes novel uses of elemental and isotopic analyses of minerals for petrology, geochronology and thermochronology, thermobarometry, ore genesis and sedimentary provenance. Contributions are encouraged in emerging research areas such as applications of quantitative mineralogy to the oil and gas, manufacturing, forensic science, climate change, geohazard and health sectors.

Editor-in-Chief

Prof. Dr. Leonid Dubrovinsky

Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), GeoRef, CaPlus / SciFinder, Inspec, Astrophysics Data System, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Mining and Mineral Processing) / CiteScore - Q1 (Geology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.2 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
