

Special Issue

Advances in Agent-Based Modelling and Simulation for Industrial and Public Assets

Message from the Guest Editors

This Special Issue explores the latest advancements in agent-based modelling and simulation for industrial assets. It aims to highlight innovative research and practical applications that leverage agent-based modelling and simulation to enhance the operation, and maintenance of industrial assets such as machinery, equipment, and infrastructure. This Special Issue seeks to provide valuable insights for researchers, practitioners, and industry professionals dedicated to improving the efficiency, availability, reliability, maintainability, supportability, safety and sustainability over the entire lifespan of industrial assets through cutting-edge modelling and simulation techniques.

Prof. Dr. Yiliu Liu

About the Journal

Message from the Editorial Board

We encourage you to contribute a research or comprehensive review article for consideration and publication in *Modelling* (ISSN 2673-3951), an international open access journal, which is published quarterly online by MDPI. The editorial board and staff of *Modelling* are dedicated to providing an advanced forum for studies related to the development and applications of modelling and simulation techniques. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications.

Editors-in-Chief

Prof. Dr. Alfredo Cuzzocrea

1. DISPES Department, University of Calabria, 87036 Rende, Italy
2. Institute of High Performance Computing and Networking, Italian National Research Council, Via P. Bucci, 7/11C, 87036 Rende, Italy

Prof. Dr. Wei Gao

School of Civil and Environmental Engineering, Faculty of Engineering,
University of New South Wales, Sydney, NSW 2052, Australia

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, Ei
Compendex, EBSCO and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 19.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q2
(Mathematics (miscellaneous))
