### Message from the Guest Editor

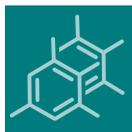

Dear Colleagues,

Extracts of cannabis plants (*Cannabis sativa* and *Cannabis indica*), have been used for centuries because of their recreational and therapeutic effects. However, it has only been around 50 years that we have known the identity of their most active principle [ $\Delta^9$ -tetrahydrocannabinol (THC)], and of the >110 compounds collectively termed “phytocannabinoids”.

Deadline for manuscript  
submissions:

**closed (30 July 2019)**

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 22nd year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Reaxys](#), [PubMed](#), [PMC](#), [MEDLINE](#), [EMBASE](#), [CaPlus / SciFinder](#), and many [other databases](#).

**Rapid Publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 13.3 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2020).
