

1st CQE Days Meeting: 44 Years Connecting People and Chemistry

Guest Editors:

Dr. Nuno Neng

Dr. Tânia S. Morais

Dr. Marta M. Alves

Dr. Ana Paula Da Costa Ribeiro

Dr. Gonalo J. Justino

Dr. Karina Shimizu

**Dr. Carlos Eduardo Sabino
Bernardes**

Ms. Luciana Silva

Deadline for manuscript
submissions:

closed (30 April 2020)

Message from the Guest Editors

Dear Colleagues,

The Centro de Química Estrutural (CQE) is one of the oldest chemical research units in Portugal. It is recognized as one of the best of European research centers, with collaborations established with the top research centers and universities across Europe, the USA, and Japan, just to mention some.

This Special Issue will cover the research performed at Centro de Química Estrutural (CQE) mostly during the 1st edition of the CQE Days meeting, with the intent of sharing information about the research work carried.

The list of topics is not confined to what is presented in the meeting, and manuscripts discussing advances in methodologies and effects on chemical or biological processes, including experimental, computational, and/or simulation studies are welcomed. Synthesis, catalysis, materials, nanochemistry, chemistry for the environment, energy, and medicinal and biological studies are topics of interest to this issue.

Dr. Nuno Neng
Dr. Tânia S. Morais
Dr. Marta M. Alves
Dr. Ana Paula C. Ribeiro
Dr. Gonalo J. Justino
Dr. Karina Shimizu
Dr. Carlos E. S. Bernardes
Ms. Luciana Silva

Guest Editors

Editor-in-Chief

Dr. Derek J. McPhee

Senior Director, Technology
Strategy, Amyris, Inc., 5885 Hollis
St, Suite 100, Emeryville, CA

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 22nd year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access:—free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed by the [Science Citation Index Expanded](#) (Web of Science), [MEDLINE](#) (PubMed), [Scopus](#) and [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 12.3 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the first half of 2020).
