Message from the Guest Editor

Dear Colleagues,

This Special Issue of *Molecules* is dedicated to recent advances in the research area of natural products chemistry and comprises a selection of exclusive papers of the Editorial Board Members (EBMs) of the Natural Products Chemistry Section. This section collects either research articles highlighting interesting results of the research groups of our section's EBMs or review articles in which our section's EBMs discuss key topics in the field. This Special Issue aims to represent our section as an attractive open-access publishing platform for natural products chemistry research.

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.
