### Message from the Guest Editors

Dear Colleagues,

The aim of this Special Issue of *Molecules* is to collect contributions from leading researchers in academia and industry that address, in particular, controversial or challenging problems in this field of research. We emphasize that we would like to encourage you to tackle difficult issues head-on, identifying what you see as the major challenges. We would also welcome your opinions and speculations regarding controversies within the field.

Given your significant contributions, we thought that you would be an ideal author to address such questions. We hope that you will be willing to contribute to this volume, the aim of which is to provide stimulation to other researchers and, ultimately, to help generate new ideas and approaches.

Dr. Marco Guerrini

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
