Deadline for manuscript
submissions:

31 January 2021

Message from the Guest Editors

This Special Issue of *Molecules* on “Selected Papers from the 6th International Mediterranean Symposium on Medicinal and Aromatic Plants (MESMAP-6)” welcomes submissions of previously unpublished manuscripts from original work on all the above aspects, including isolation, structure elucidation, and biological activity of plant secondary metabolites; pharmacological study of medicinal plants and traditional medicine formulae; efficacy of natural products; safety and regulations on natural products; and natural products used in cosmeceuticals, nutraceuticals, and veterinary medicine.

Please note that reports of known compounds from new plant sources will not generally be accepted unless they have relevant biological and pharmacological activities. Plant extracts used for in vitro and/or in vivo pharmacological studies must be characterized by analysis of their major constituents (e.g., HPLC fingerprints, HPLC-MS, GC-MS, or NMR analyses).

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 22nd year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed), Scopus and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 14 days after submission; acceptance to publication is undertaken in 2.3 days (median values for papers published in this journal in the second half of 2019).
