Deadline for manuscript
submissions:

30 April 2019

Message from the Guest Editor

Dear Colleagues,

Microwave-mediated chemistry continues to have an impact on chemical synthesis, scale-up, medicinal chemistry, catalysis, material science and many other areas of science. Often, yields are improved and processes can be carried out in minutes compared to their thermal counterparts. Many processes can be carried out in batches or can be solvent-free.

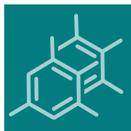

It is a great pleasure to invite you to participate in showcasing your work in microwave-mediated chemistry.

Prof. Dr. John Spencer

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Derek J. McPhee

Senior Director, Technology
Strategy, Amyris, Inc., 5885 Hollis
St, Suite 100, Emeryville, CA
94608, USA

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 22nd year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed), Scopus and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 12.6 days after submission; acceptance to publication is undertaken in 4.4 days (median values for papers published in this journal in the second half of 2018).
