Message from the Guest Editors

Dear Colleague,

The S.I.F.—Italian Society of Phytochemistry and Sciences of Medicinal, Food and Perfume Plants celebrate in 2021 forty years of scientific activity with a Special Issue dedicated to an interdisciplinary vision of phytochemistry as the link between knowledge of plants and their applications. The Special Issue aims to highlight the multidisciplinary use and application of phytochemical methods in the study of plant metabolites, exploring both classical and innovative methods.

- phytochemistry, botanical, agronomic, ecological and phytochemical aspects
- biochemistry, pharmacognosy, pharmacology, and toxicology of plants
- food, cosmetic, and technological-pharmaceutical aspects of plants

You are welcome to visit the [website](#) and submit your **abstract** here. We are looking forward to receiving your contributions!

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
