Deadline for manuscript  
submissions:

**closed (30 June 2023)**

### Message from the Guest Editors

Dear Colleagues,

Due to their efficiency, safety, and structural diversity, natural products have attracted more and more interest from researchers aiming to identify drug candidates for metabolic disorders, including obesity, diabetes, and aging. Despite the availability of many pharmacotherapies, new small molecules that are capable of preventing or treating metabolic disorders are needed. In recent years, the identification of novel therapeutic targets and the application of various omics technologies have shed light on the vitality of natural products. This Special Issue aims to report and review the latest progress made in the use of natural products for preventing and treating obesity, diabetes, and aging, as well as their potential applications as health products or drug candidates.

Prof. Ligen Lin

## Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
