Message from the Guest Editors

Dear Colleagues ,

It is our pleasure to announce a new Special Issue entitled “**Feature Papers in Organic Chemistry (Volume II)**”. This is a collection of important high-quality papers (original research articles or comprehensive review papers) published in an open access format by Editorial Board Members or prominent scholars invited by the Editorial Office and Guest Editors. This Special Issue aims to discuss new knowledge or novel cutting-edge developments in the organic chemistry research field through selected works, in the hopes of offering a great contribution to the community. We intend for this Special Issue to be the best forum for disseminating excellent research findings, as well as sharing innovative ideas in the field.

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.
