closed (31 December 2022)

Message from the Guest Editor

Dear Colleagues,

In Japan, many researchers are working on the topic of analytical chemistry, with outstanding results. In order to collect those new results from the researchers in Japan, a Special Issue entitled “Analytical Chemistry in Japan” is being launched. This Special Issue collects full papers and high-quality review papers in all fields of analytical chemistry. We kindly encourage the colleagues involved in all branches of analytical chemistry to make contributions to this Special Issue.

Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
