

an Open Access Journal by MDPI

## Natural Active Agents Against Bacteria, Fungi and Parasites

Guest Editors:

**Prof. Dr. Maria Daglia**

Department of Drug Sciences,  
University of Pavia, Pavia, Italy

**Prof. Dr. Annabella Vitalone**

Department of Physiology and  
Pharmacology "V. Erspamer",  
Sapienza University of Rome,  
Rome, Italy

**Dr. Simone Carradori**

Department of Pharmacy,  
University "G. d'Annunzio" of  
Chieti-Pescara, Chieti, Italy

Deadline for manuscript  
submissions:

**closed (31 December 2019)**

### Message from the Guest Editors

This Special Issue aims to collect and disseminate some of the most significant and recent contributions in the interdisciplinary area of pharmacology, pharmacognosy, and food/medicinal chemistry, with a particular emphasis on the (biotechnological) production, isolation and characterization, biological effects, uses, and analysis of semi-synthetic and natural products. The main applications of these natural active compounds must be strictly focused on microbial (bacterial, fungal and viral) infections, parasite eradication, food contamination and preservation, inhibition of biofilm production and resistance development, herbal formulations, new mechanism of action, structure-activity elucidation, and chemically modified natural compounds with improved biological activity. The biological activity of natural extracts without a proper chemical characterization will not be considered.

# Special Issue

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Thomas J. Schmidt**

Institute of Pharmaceutical  
Biology and Phytochemistry,  
University of Münster,  
Corrensstrasse 48, D-48149  
Münster, Germany

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
