Deadline for manuscript
submissions:

closed (31 July 2020)

Message from the Guest Editor

Molecules is pleased to announce a Special Issue honoring Professor Dr. Dieter Schinzer, on the occasion of his 65th birthday, for his outstanding achievements in natural product chemistry. This Special Issue is dedicated to all aspects of natural product chemistry, in particular total synthesis, but, following the interests of Dr. Schinzer, contributions related to isolation and structure elucidation, as well as drug design based on natural product leads, their computer aided methods and structure-activity relationships (SAR), are welcome.

It is a pleasure to invite you to submit a manuscript to this Special Issue. Regular articles, communications, and reviews are all welcome.

an Open Access Journal by MDPI

Editor-in-Chief

Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Multidisciplinary*) / CiteScore - Q1 (*Chemistry (miscellaneous)*)
