Message from the Guest Editor

Electrochemical sensors have recently found extensive applications in diverse industries. Nowadays, many analytical instruments used in food, pharmaceutical, or clinical laboratories comprise chemical sensors as a whole or as a basic part.

You are invited to submit your original articles or reviews. You are welcome to visit the **webiste**, and submit the **abstract**, and **full paper**. Any questions, please feel free to contact the managing editor Larry Li (larry.li@mdpi.com).

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
