

an Open Access Journal by MDPI

Bioactive Molecules and Their Mechanisms of Action

Guest Editors:

Prof. Dr. Atanas G. Atanasov

Ludwig Boltzmann Institute for Digital Health and Patient Safety, Medical University of Vienna, Spitalgasse 23, 1090 Vienna, Austria

Dr. Karel Šmejkal

Department of Natural Drugs, Faculty of Pharmacy, University of Veterinary and Pharmaceutical Sciences Brno, Brno, Czech Republic

Dr. Elke Heiss

Department of Pharmacognosy, University of Vienna, Vienna, Austria

Message from the Guest Editors

Prompted by the strong academic and public interest in our previously-edited Special Issue for *Molecules*, focused on the topic "Effects of Natural Products in the Context of Cardiometabolic Disease", we will release another Special Issue. For this new issue, entitled "Bioactive Molecules and Their Mechanisms of Action", we strongly encourage the submission of works examining the mode of action of natural products in models of cardiovascular or metabolic diseases, but also extend the scope to include submissions that are related to the mechanistic characterization of compounds other than natural products, or to bioactivities beyond the cardiometabolic field, including but not limited to effects on inflammation, advanced antioxidant activity studies, or effects on gut microbiota.

Deadline for manuscript submissions:

closed (31 May 2019)

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical
Biology and Phytochemistry,
University of Münster,
Corrensstrasse 48, D-48149
Münster, Germany

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Reaxys](#), [CaPlus / SciFinder](#), [MarinLit](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q2 (Chemistry, Multidisciplinary) / CiteScore - Q1 (Chemistry (miscellaneous))
