Message from the Guest Editors

Dear Colleagues,

This Special Issue "Natural Product Pharmacology and Medicinal Chemistry" aims to collect and to disseminate some of the most significant and recent contributions in the interdisciplinary area of pharmacology and medicinal chemistry, namely the characterization and analysis of synthetic and natural products.

This Special Issue is supported by the Sample Preparation Task Force and Network, of the European Chemical Society-Division of Analytical Chemistry (<https://www.sampleprep.tuc.gr/en/home/>).

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.
