Message from the Guest Editor

Dear Colleagues,

We are delighted to announce that we have launched a new Special Issue on the topic, "Reactive Intermediates". We are trying to approach potential contributors in the field of strained molecules, transient species relevant to mechanistic studies, computational studies of high energy intermediates, aromaticity and antiaromaticity. It is anticipated that this Special Issue will contain at least ten contributions entailing current research or reviews. We welcome any contributions on these topics and look forward to receiving them.

Kind regards,

Prof. emer Edward Lee-Ruff

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
