### Message from the Guest Editors

Phytochemistry, and Natural Products Chemistry more generally, continues to produce discoveries of fundamental importance and direct relevance to both industrial and clinical application. In this Special Issue, we highlight the contributions of female scientists to these exciting research areas. For this, we solicit original interdisciplinary, innovative, and unconventional research, which goes beyond the usual.

You are welcome to visit the [website](#), submit the **abstract**, and **full paper** to the Special Issue. Any questions please feel free to contact the managing editor Larry Li ([larry.li@mdpi.com](mailto:larry.li@mdpi.com)).

## Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.
