Synthesis and Application of Metal–Metal Oxide Catalysts

Message from the Guest Editors

Metal–Metal Oxide Catalysts focus on the research of metal solid solutions and the synergistic effect between different components. In a series of reactions, the combination of multiple metal oxides facilitates the reaction or improves the performance of a particular property. The study of the reaction mechanism is also a great challenge. This Special Issue focuses on Metal–Metal Oxide Catalysts. Submission of the original articles, systematic reviews, short communications, and other types of articles on related topics are welcome. All manuscripts will follow standard journal peer-review practices, and those accepted for publication appear in the Special Issue on the Synthesis and Application of Metal–Metal Oxide Catalysts. We look forward to receiving your contributions to the Special Issue.

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
