

Special Issue

25th Anniversary of Molecules —Recent Advances in Computational and Theoretical Chemistry

Message from the Guest Editor

This year marks the 25th anniversary of the open access MDPI journal *Molecules*. Over the years, it has grown and expanded considerably and now publishes new research as well as review articles from across the broad spectrum that is chemistry. For example, it now publishes on chemistry topics from analytical chemistry and organic synthesis to natural products, nanoscience, and theoretical and computational chemistry, among others.

The impact of the journal is further highlighted by the fact that it has now published over 20,000 research articles and reviews, while its website attracts 115,000 monthly visits and 395,000 monthly page views.

To mark this important anniversary milestone, a Special Issue titled Special 25th Anniversary of Molecules—Recent Advances in Computational and Theoretical Chemistry is being launched. This Special Issue, in the spirit of MDPI *Molecules*, will publish high-quality research and review articles from across the spectrum of chemistry.

Guest Editor

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarInLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
