

Special Issue

Featured Review Papers in Food Chemistry—2nd Edition

Message from the Guest Editor

This Special Issue aims to collect high-quality review papers in the field of food chemistry research. Following the great success of the 1st Edition, we are now launching the 2nd Edition of this Special Issue. You can find the first edition here:

https://www.mdpi.com/journal/molecules/special_issue

[s/6FL8Z81451](https://www.mdpi.com/journal/molecules/special_issue) We are welcoming proposals for review articles in this dynamically developing discipline in relation to fundamental and applied research in all food-related domains. In particular, reviews on the most recent analytical approaches to extract, detect, and quantify food bioactive and toxic components; bioaccessibility; and bioavailability studies on the development of food supplements and functional foods will be taken into consideration. Moreover, other topics that will be considered are food safety, food physicochemical properties, food packaging, and the recycling of agro-food waste for non-nutritional/food use. We invite and encourage all research groups covering various areas of food chemistry to make contributions to this Special Issue.

Guest Editor

Prof. Dr. Fei Tao

Laboratory of Food Microbial Technology, State Key Laboratory of Microbial Metabolism, School of Life Sciences and Biotechnology, Shanghai Jiaotong University, Shanghai 200240, China

Deadline for manuscript submissions

30 September 2025

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
