# **Special Issue**

# Advanced Functional Quantum Dots: Design, Properties and Application

## Message from the Guest Editors

I am reaching out to let you know that we are organizing a Special Issue on "Advanced Functional Quantum Dots: Design, Properties and Application" that we think you may be interested in contributing to. *Molecules* has become a popular journal in the field, and we hope that, with your help, this Special Issue will be successful. This Special Issue aims to highlight the latest progress in the design, properties, and applications of quantum dots. We welcome contributions on various topics, including, but not limited to, the following:

- Quantum modelling and theoretical studies of the synthesis and properties of quantum dots;
- Synthesis and fabrication techniques for novel quantum dots;
- Engineering approaches to tailor the properties of quantum dots;
- Applications in electronics, optoelectronics, energy storage, catalysis, and sensing.

We invite researchers working in these areas to submit their latest findings to this Special Issue. Your contributions will help advance the understanding and technological impact of quantum dots in various fields.

#### **Guest Editors**

Prof. Dr. Łukasz Kaczmarek

Institute of Materials Science and Engineering, Lodz University of Technology, Stefanowskiego 1/15, 90-537 Lodz, Poland

Dr. Piotr Zawadzki

Institute of Materials Science and Engineering, Lodz University of Technology, Stefanowskiego 1/15, 90-924 Lodz, Poland

## Deadline for manuscript submissions

30 January 2026

## **About the Journal**

## Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

#### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

#### **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
