

## Special Issue

# Applications and Method Developments in NMR – from Benchtop to High Field NMR Spectroscopy

### Message from the Guest Editor

Recent advances in technology have brought forth new applications and developments in the NMR community. No longer does an NMR spectrometer require a large footprint; it is now possible to have the entire NMR spectrometer on a lab bench. Therefore, this brings a new perspective on NMR method developments that focus on a range of magnetic fields, from benchtop to high-field NMR spectrometers. The goal of this issue is to bring together developments and applications that cover a range of magnetic field strengths, allowing for a complete overview of the current development in NMR spectroscopy for both novice and advanced users.

### Guest Editor

Prof. Dr. Ronald Soong

Department of Chemistry and Environmental NMR Centre, University of Toronto, 1265 Military Trail, Toronto, ON M1C 1A4, Canada

### Deadline for manuscript submissions

closed (31 July 2023)

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to experimental organic chemistry, and now in its 25th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts and novel materials. Pushing the boundaries of the discipline, we invite papers on multidisciplinary topics bridging biochemistry, biophysics and materials science, as well as timely reviews and topical issues on cutting edge fields in all these areas.

---

### Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
