

Special Issue

Nanomaterials for Energy Storage and Conversion

Message from the Guest Editors

The editorial board of *Molecules* invites you to submit an article or review to a Special Issue entitled "Nanomaterials for Energy Storage and Conversion". Environmentally friendly energy storage and conversion technologies require scientists to design new functional materials, of which nanomaterials are one of the most likely candidates. The design and preparation of nanomaterials and their application in the conversion of light/electricity/heat/chemical energy have become the focus of scholars around the world. This Special Issue welcomes contributions from scholars on recent advances in nanomaterials for energy storage and conversion. *Molecules* is indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed) and other databases, and has an Impact Factor of 4.927 (2021).

Guest Editors

Dr. Tao Wang

College of Materials Science and Technology, Nanjing University of Aeronautics and Astronautics, Nanjing 211106, China

Prof. Dr. Xianguang Meng

Faculty of Physical Sciences, Greater Bay University, Dongguan 523000, China

Deadline for manuscript submissions

closed (31 December 2024)

About the Journal

Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 29th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.

Editor-in-Chief

Prof. Dr. Thomas J. Schmidt

Institute of Pharmaceutical Biology and Phytochemistry, University of Münster, Corrensstrasse 48, D-48149 Münster, Germany

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Reaxys, CaPlus / SciFinder, MarinLit, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.1 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
