# Exclusive Feature Papers in Physical Chemistry, 2nd Edition

### Message from the Guest Editor

We are pleased to announce a new Special Issue entitled “Exclusive Feature Papers in Physical Chemistry, 2nd Edition”. This is a collection of important high-quality papers (original research articles or comprehensive reviews) published in open access format by Editorial Board Members or prominent scholars invited by the Editorial Office and the . We aim to gather state-of-the-art and new cutting-edge developments covering all kinds of topics in the physical chemistry field through the selected works in the hope of making great contributions to the community. We intend for this Special Issue to be the best forum for disseminating excellent research findings as well as for sharing innovative ideas in the field.

## About the Journal

### Message from the Editor-in-Chief

As the premier open access journal dedicated to molecular chemistry, now in its 30th year of publication, the papers published in *Molecules* span from classical synthetic methodology to natural product isolation and characterization, as well as physicochemical studies and the applications of these molecules as pharmaceuticals, catalysts, and novel materials. Pushing the boundaries of the discipline, we invite papers on all major fields of molecular chemistry and multidisciplinary topics bridging chemistry with biology, physics, and materials science, as well as timely reviews and topical issues on cutting-edge fields in all of these areas.
